- AUTOMOTIVE
- AERONAUTICS
- HYDRAULICS
- MECHANICS OF PRECISION
- MATERIALS COMPOSITES
- DEPARTMENTS RACING

HOW WE ARE ORGANIZED

Laser marker which guarantees identification e traceability of tools

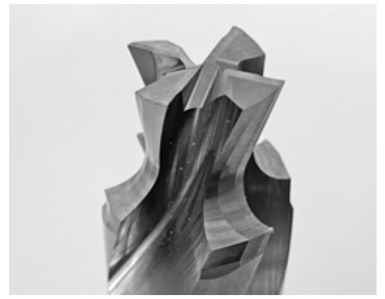
In order to offer an excellent level of quality, we have always invested in high quality machinery. Here are some of the tools we work with.

Latest generation 5-axis CNC sharpening machines with wheel pack change and tool magazine for unmanned processing.

Automatic cutter of cylinders for the preparation of the pieces for the processing on sharpeners

Final checks with machine for automatic tool measurement

ADVANTAGES OF A SPECIAL TOOL



Many of our customers come to us when they have special processing needs for which it is necessary to study and make a tool that satisfies them. They rely heavily on our ability to analyze their needs and to always find the right solution.
